THE AUCTION NETWORK

Homes of Choice Auctions provides clients with their own auction platform. Property owners will be able to sell their property within a set timeframe. Unique, premium properties can be perfect for auction, as increased interest generated from an attractive guide price can encourage interested parties to competitively bid, driving up the eventual selling price.

Whilst we move through a time of uncertainty, we know that speed and security remain of significant importance to property owners. Giving you an alternative solution, which enhances these elements of the process is a unique and valuable offering.

Move more quickly

You will benefit from a faster process than private treaty, reducing completion times to within 56 days.

Complete security

A no sale, no fee safety net means you pay nothing if your property does not sell.

Transparency

Offering you a clear and transparent process with bidding activity visable to all parties online.

Committed buyers

With a financially committed buyer, auction provides a higher level of security for you with a high success rate.

What are we looking for?

Farmhouses, barns, land (with or without planning), refurb opportunities, property with structual issues, property portfolios, unique homes, properties requiring a quick sale.
